STEP 7 : Set up email

Enter the final information to your account using your keypad.

Give this account a name : [ENTER] "**Your email address**".

(Optional) (This is the easiest way to differentiate between accounts if you have more than 1)

Your name : [ENTER] "**Your name as you want it to display on email messages.**"

[TOUCH] "Done".

The setup is now completed.

You will now be brought to your account "Inbox" and you will see your emails start to appear (if you do have emails).

How do I find the server settings?

To find your server settings, sign in to your email account using Outlook . After you sign in, click **Options > See All Options > Account > My Account > Settings for POP, IMAP and SMTP access**. The POP3, IMAP4, and SMTP server name and other settings you may need to enter are listed on page under **POP setting** or **IMAP setting** and **SMTP setting**.
